

Neutralize

Air Sanitisation Gel

A gentle and multi-use disinfection gel to eliminate 99.99% of bacteria and viruses.

AIR SANITISER

Neutralize® Air Sanitation Gel is a versatile product by Natural Water Solutions to eradicate harmful airborne bacteria and viruses, while safely eliminating bad odours. It contains Chlorine Dioxide (ClO_2) which has been proven to be an extremely effective product in killing 99.99% of harmful bacteria.

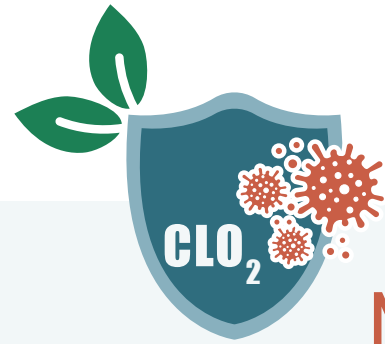

Is it an easy to use product for both residential and commercial applications, and the CleanOxide® Gel actually has the ability to kill the source of the problem. The CleanOxide® Gel also has the ability to destroy the dangerous formaldehyde gas that builds up in homes and work places.

- **Slow regulated release of chlorine dioxide vapour at undetectable and safe levels**
- **Simple mixing instructions**
- **No capital investment required**
- **1 packet treats up to 25m² (floor area)**
- **The Gel will turn yellow approximately 20 mins after activation**
- **After approximately 30 days the Gel will lose its colour and become inactive**
